

Gamme Pharmaplast

344 références distribuées au Maroc par ULTIMED

Distributeur certifié ISO 13485

Conformité CE

Traçabilité par lot

Homologation DMP

Le fabricant

Pharmaplast est un fabricant international de premier plan spécialisé dans les pansements techniques avancés, les masses adhésives hypoallergéniques et les films de découpe chirurgicale. Conçue pour répondre à la prise en charge des plaies aiguës, chroniques (ulcères, escarres) et opératoires, la gamme Pharmaplast allie capacité d'absorption élevée, respect du milieu humide de cicatrisation et retrait atraumatique.

Pourquoi via ULTIMED

Partenaire stratégique des services de dermatologie, chirurgie plastique, soins infirmiers et centres de traitement des brûlés au Maroc.

Gammes par spécialité

Pansements Mousse Polyuréthane & Hydrocellulaires (Espuma)

Pansements en mousse absorbante de polyuréthane Espuma (modèles adhésifs avec bords scellés, non adhésifs et Lite) maintenant un gradient d'humidité idéal sans macération des berges cutanées.

Pansements Antibactériens à l'Argent & Charbon (Exsorb Ag & Pharmapad)

Compresse d'alginate et de carboxyméthylcellulose avec argent ionique Exsorb Ag et mousses au charbon actif Pharmapad Carbon neutralisant les germes pathogènes et résorbant les odeurs des plaies nécrotiques.

Films Chirurgicaux & Bandes de Fixation (Pharmafix & Protectfilm)

Films chirurgicaux transparents en polyuréthane Protectfilm et Incifilm au complexe d'iode stérile pour l'isolation du champ opératoire et la fixation étanche des cathéters.

Avant de commander

-

Adapter la gamme selon le niveau d'exsudat : mousses polyuréthane Espuma pour exsudat modéré à abondant, hydrocolloïdes Pharmacoll pour exsudat faible.

- Exiger les pansements à l'argent Exsorb Ag ou charbon actif Pharmapad Carbon pour les plaies colonisées ou malodorantes.
- Vérifier la perméabilité à l'air et à la vapeur d'eau des films de fixation Pharmafix et Protectfilm.
